📍 Lagos, Nigeria | 🌐 Open to Remote Roles

PROFESSIONAL SUMMARY

Multidisciplinary professional with experience in web development, and data-focused research. Skilled in building responsive websites (HTML, CSS, JS, WordPress, Webflow) and collecting/analyzing data for development and health projects (USAID, WHO, NBS). Tech-savvy, detail-driven, and passionate about combining design, data, and strategy to create user-centered and impactful solutions.

WORK EXPERIENCE

Title – Web Designer/Frontend-Developer

Dec 2024 – Sept 2024

Self-employed (Freelance), Lagos (Nigeria)

- Launched the Positive Peace Blog in 2022 using WordPress, self-taught through tutorials, sparking a passion for web design and responsive layouts.
- Designed and developed a personal portfolio website with HTML, CSS, and JavaScript, featuring dynamic scroll behavior, a light/dark theme toggle, and automatic image scrolling within portfolio cards triggered by hovering or tapping - aided by AI tools.
- Created responsive SME websites using Figma for wireframes, WordPress, and Webflow, enhancing client online presence.
- Developed a Small Business Website with custom HTML, CSS, and branding, boosting user engagement for 2 clients.
- Expanding JavaScript skills to build interactive features, complementing no-code designs.

Title – LGA Consultant

Feb 2024 – Sept 2024

MRITE - USAID, Lagos (Nigeria)

- Conducted FGDs and KIIs with women and community leaders in Ifako and Ikorodu LGAs to assess maternal and child health trends aiming to Improve Routine Immunization (RI) services.
- Led and coordinated community-based health research and immunization assessments, gathering data from over 4,000 settlements in Ikorodu LGA using ODK tools.
- Ensured high-quality data collection, performing spot checks and audits at multiple healthcare facilities.
- Assisted in the development of GIS-enabled microplans for targeted immunization efforts.
- Conducted key informant interviews (KIIs) and focus group discussions (FGDs) with women of reproductive age, health administrators, and community leaders to assess maternal health services.
- Utilized designated applications to record interviews and discussions, ensuring data accuracy.
- Transcribed collected data into electronic formats for qualitative analysis.
- Provided findings and recommendations that shaped the USAID Health, Population, and Nutrition Office's client-centered approach to improving maternal health in Nigeria.

Title - Independent Monitor/Validator

Jan 2021 – Feb 2025

WHO, Kaduna, Lagos (Nigeria)

- Participated in public health surveys (PAPA-LQAS) to assess immunization coverage.
- Conducted field monitoring for measles and yellow fever vaccination campaigns, ensuring compliance with WHO protocols.
- Engaged community stakeholders to address immunization gaps, ensuring effective outreach.

Title - Enumerator

Jan 2021 – March 2025

National Bureau of Statistics, Kaduna, Lagos (Nigeria)

- Conducted structured interviews for national surveys, including the Better Education Service Delivery for All (BESDA) and SMEDAN MSME Surveys.
- Used SurveyCTO and KoboToolbox for data collection on various projects ensuring data integrity.
- Conducted prices survey at different market outlets to get data for inflation tracking.

EARLIER WORK EXPERIENCE (2014–2020)

Freelance Graphic Designer – Hyai FM / Independent | 2020

Created branded materials (flyers, logos, social media content) using Canva, enhancing engagement for Hyai FM and other clients.

Researcher & TV Presenter – R-Wells Media | 2016–2017

Researched and presented content for a weekly sports program, incorporating public opinion to shape broadcast segments.

Admin Assistant (NYSC) – DAAR Communications Plc | 2014–2015

Digitized staff records, processed leave/loan applications, and managed internal memos and personnel logistics in a broadcast media setting.
